JOIN THE ADVENTURE

“YOU DON'T DISRUPT THE INDUSTRY BY DOING IT THE SAME WAY IT'S ALWAYS BEEN DONE.”

The team at Voyager knows a thing or two about giving golf cart dealers what they want. That's because they've spent well over a decade in the golf cart industry as a dealer. Inspired by the unique needs and recent shift in the industry, the Voyager team sought to build it better.

Beyond the four high-performing lithium-powered models – the Patriot, Pioneer, Explorer, and Rebel, the Voyager team is hyper-focused on the support they provide to their dealer network. Using their experience as a dealer themselves, they understand the challenges dealers often face. From providing reliable dealer customer support, to offering a full coverage warranty package, to stocking a complete supply of replacement parts, they are determined to stay miles ahead of the needs of their quickly expanding dealer network.

“DEALER SUPPORT IS OUR TOP PRIORITY BECAUSE THAT'S WHAT MATTERS MOST - FOR TODAY AND FOR THE FUTURE.”

With the Voyager team's dedication and experience, plus their electric vehicles' performance and position in the market, they are clearly on the path to a successful adventure. Or as they like to say, 'an adventure like no other!'
